DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 14 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is a data structure that is not limited to being embodied on a tangible computer readable medium. See MPEP 2106. An amendment setting forth the claimed data structure on a computer readable medium would place the claim in condition for allowance.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. ***.
